

FOR IMMEDIATE RELEASE

Accelerated Information Management LLC (AIM) Awarded Subcontract by SAIC to Help Support Defense Intelligence Agency, Combatant Commands, Service Intelligence Agencies

Company to Help Provide a Full Range of Information Technology (IT) Services in Support of Defense Intelligence Operations

(Vienna, Va.) May XX, 2010 — Accelerated Information Management LLC (AIM) has been awarded a subcontract from prime contractor Science Applications International Corporation (SAIC) [NYSE: SAI] on a new contract by the Defense Intelligence Agency (DIA) to support the DIA DoD Intelligence Information System (DoDIIS) Enterprise, Combatant Commands and Service Intelligence Agencies with information technology (IT) services. The Solutions for the Information Technology Enterprise (SITE) multiple award, indefinite-delivery/indefinite-quantity (IDIQ) contract awarded to SAIC, has a one-year base period of performance, four one-year options, and a ceiling value of \$6.6 billion for all awardees. This is the largest contract ever awarded by DIA.

The Defense Intelligence Agency is a Department of Defense (DOD) combat support agency that provides military intelligence to warfighters, defense policymakers and force planners in support of U.S. military operations and weapon systems acquisition. This contract will enable DIA to acquire the full scope of IT services and capabilities needed to accomplish its critical missions. Under the subcontract, AIM will provide coverage for IT requirements and technical support services, and assist SAIC and their government client as required through system design, development, fielding, and sustainment of global intelligence and C2 (command and control) assets vital to the security of the United States. AIM will provide support as required in areas including program management; technology assessment and evaluation; network operations and administration; web and content management; and information assurance.
